

Motorized Convenience. Perfectly Priced.

GRABER SIMPLE MOTOR

The Graber Simple Motor is a straightforward, affordable solution for customers looking to control hard-to-reach and multiple shades with ease. Paired with a Graber Shade, the Simple Motor brings remote control convenience and cord-free safety to everyday life.

Motor Details

- Available for Graber Solar, Roller, Cellular, and Pleated Shades
- Increases sales opportunities for you while adding a new, competitively priced choice for customers
- Simple setup: shades are preprogrammed to the remote at the factory
- Works with the most popular shades sizes
- Power with easy-to-find AA alkaline batteries, a plug-in transformer, or direct wire behind the walls with a multi-motor power supply
- Budget-friendly, single-channel remote
 - Perfect for controlling one shade or several at once
 - Has a “my” button for presetting a favorite shade position
 - Uses proven Somfy® RTS radio technology compatible with all RTS controls
 - Operates up to 65 feet from window, handheld or wall mounted

Best For Kids™

All Graber Motorized Shades are certified Best for Kids by an independent lab, giving your clients peace of mind knowing they've chosen the safest cordless products for their kids and pets.
